DIGITAL SOLUTIONS

BUILT FOR YOUR BUSINESS.

Custom web apps, professional websites, hosting and ongoing support - built around the way your business works.

WHAT WE OFFER

WEB APPS | WEBSITES | HOSTING | MAINTENANCE

IDEA / DEVELOPMENT / LAUNCH / SUPPORT

WHAT WE BUILD

Software that fits the way you work.

From your first business website to a purpose-built internal system, FLOFOL helps turn manual tasks into practical digital tools.

Custom web applications

Designed around your actual workflow

Replace disconnected spreadsheets, repetitive admin and paper-based processes with an application tailored to your business.

- Inventory and stock management
- Job tracking and project workflows
- Client records, booking tools and dashboards

Professional websites

Make a strong first impression online

Modern, mobile-friendly websites that clearly explain what you do and make it easier for potential customers to reach you.

- Business websites, landing pages and contact forms

BUILT TO BE

PRACTICAL	ADAPTABLE	YOUR OWN
Easy to use	Room to grow	Built for you

BEYOND THE BUILD

We help keep your digital tools running.

A good launch is only the beginning. Hosting and maintenance can be arranged to keep your business online and your systems supported.

Hosting solutions

Deployment and hosting for suitable websites and web apps, with options discussed according to your needs.

- Cloud and server-based options
- Domain and SSL setup guidance

Maintenance & support

Keep your system useful over time with planned updates, fixes and improvements under an agreed support package.

- Bug fixes and ongoing updates
- Backups and support as agreed

HOW A PROJECT WORKS

01	02	03	04
DISCOVER	**PLAN**	**BUILD**	**SUPPORT**
Discuss goals	Agree on scope	Develop & test	Launch & maintain

FLEXIBLE BY DESIGN

Every build is scoped individually. Hosting and maintenance are quoted separately, with the service level agreed in advance.

SEE IT IN ACTION

See what we can build.

Our inventory web app is a practical example of the custom systems we develop. QR links to the video demonstrations will be added here.
